

Water for Peace

World Water Day 2024
social media messages

Water for peace.

Water can create peace or spark conflict. As a human right, we must balance everyone's water needs.

This #WorldWaterDay, let's unite and use water to build a more peaceful future.

Enduring peace relies on water.

Water has a ripple effect across many global challenges – from climate change to political unrest.

This #WorldWaterDay, let's cooperate on water as a catalyst for progress. Water and peace go hand in hand. www.worldwaterday.org

Water can lead us out of crisis.

Water holds the potential to guide us through crises. Cooperation on water paves the way for cooperation on all shared challenges.

On #WorldWaterDay, we promote the vital link between water and peace. www.worldwaterday.org
